How We Share Information

We share your information in the following ways.

1. Information Shared Within the IDT Telecom Family of Companies

IDT shares customer information within the IDT Telecom, Inc. family of companies ("IDT Family of Companies") for security, operational and general administration purposes. This includes sharing information with entities (and the servers operated by those entities) in the IDT Family of Companies that are based in the USA. In applying for a prepaid card and associated accounts and services from IDT you explicitly consent to this.

Please note that the legal regimes of some territories outside of the European Economic Area ("EEA") do not always offer the same standard of data protection as those inside the EEA, although we will ensure that your personal information is only ever treated in accordance with this policy, and if you are a cardholder, our terms and conditions.

2. Information Shared Outside the IDT Family of Companies

IDT does not sell, license or share information that individually identifies our customers, people using our networks, or website visitors with others outside the IDT Family of Companies for non-IDT purposes without the consent of the person whose information will be shared, except as explained in this Privacy Policy.

IDT does not sell, rent or lease its customer lists to third parties. IDT does not publish directories of our customers' phone numbers, and we do not provide or make them available to third parties for listing in directories without prior customer consent.

IDT uses vendors and partners for a variety of business purposes such as to help us offer, provide, operate, repair and bill for products and services we deliver to you. We share information with those vendors and partners to the extent reasonably necessary for them to perform work on our behalf. For example, we may provide your credit card information and billing address to our payment processing company solely for the purpose of processing payment for a transaction you have requested. We require these vendors and partners protect any customer information we may provide to them and limit their use of IDT customer data to the purposes for which it was provided.

As mentioned above, some of these vendors and partners may be located outside the EEA, including in the USA.

IDT also may share certain de-identified information with third parties for marketing, advertising or other purposes, including the delivery of advertising campaigns and preparing and sharing aggregate business and marketing reports.

If you purchase products or services offered jointly by IDT and one of our partners, customer information may be received by both IDT and our partner that is providing the product or service. For these jointly offered products and services, you should also review the partner company's privacy policy which may include practices that are different from the practices described here.

We may disclose information that individually identifies our customers or identifies customer devices in certain circumstances, such as:

- to comply with valid legal process including subpoenas, court orders or search warrants, and as otherwise permitted by law;
- in cases involving danger of death or serious physical injury to any person or other emergencies;
- to protect our rights or property, or the safety of our customers or employees;
- to protect against fraudulent, malicious, abusive, unauthorised or unlawful use of or subscription to our products and services and to protect our network, services, devices and users from such use;
- to advance or defend against complaints or legal claims in court, administrative proceedings and elsewhere;
- to credit bureaus or collection agencies for reporting purposes or to obtain payment for IDT-billed products and services;
- to a third-party that you have authorised to verify your account information;
- to outside auditors and regulators;
- to prospective purchasers of all or part of IDT's business or assets; or

- with your consent.

3. Information Provided to or Used by Third-Party Advertising Entities or Social Networks

You may see third-party advertisements on the Websites, products or services. Some advertisements are chosen by companies that place advertisements on behalf of other third-party advertisers. These companies, often called ad servers, may place and access cookies on your device to collect information about your visit on our websites. The information they collect from our sites is in a form that does not identify you personally. This information may be combined with similar data obtained from other websites to help advertisers better reach their targeted audiences. Targeting may be accomplished by tailoring advertising to interests that they infer from your browsing of our sites and your interaction with other websites where these ad servers also are present.

If you choose to interact with specific advertisers who advertise on the Websites, the information you provide to them is subject to the conditions of their specific privacy policies. In addition, responding to or interacting with a particular advertisement, may result in you later receiving a targeted advertisement on our websites or on other sites as a result of an ad server or ad network concluding that you fit within a particular audience an advertiser is trying to reach.

The Websites also include social network or other third-party plug-ins and widgets that may provide information to their associated social networks or third-parties about the IDT page you visit, even if you do not click on or otherwise interact with the plug-in or widget.

For further details about how your personal information is used including transfers to countries outside the European Economic Area, please refer to the section headed "Use of Your Information" in our [Terms & Conditions](#). We will take all steps reasonably necessary to ensure that your personal information is treated securely and in accordance with this Privacy Policy. These steps include (i) requiring those companies, by contract, to treat your information securely and use it only in accordance with this Privacy Policy and (ii) the Information Security measures listed below.

Text and SMS message solicitations from IDT also contain an opt-out feature that you can use to prevent future marketing text and SMS messages from us. Your ability to manage some card products and services could be limited if you withdraw your consent to receive such text and SMS messages.

2. Information Used for Online Advertising

You have choices about whether certain information is collected on the Websites. You can limit the collection of certain website information by deleting or disabling cookies, as described above. Please note that disabling cookies may prevent you from using specific features on our sites and other websites, such as ordering products or services and maintaining an online account.

Working Together to Help Keep Children Safe

IDT does not knowingly market to or collect information from children under the age of 13 without obtaining verifiable parental consent. If you allow a child to use your device or card services, you should be aware that their personal information could be collected as described in this policy. We encourage parents to be involved in the online activities of their children to ensure that no information is collected from a child without parental permission. The IDT network may not be used by customers in any manner for the storage, transmission or dissemination of images containing child pornography or any other illegal or inappropriate activity involving children and we will report any instances of such activity of which we become aware to the appropriate law enforcement authorities.

Although we work hard to protect personal information that we collect and store, no program is 100% secure and we cannot guarantee that our safeguards will prevent every unauthorised attempt to access, use or disclose personal information. IDT maintains security and incident response plans to handle incidents involving unauthorised access to private information we collect or store. If you become aware of a security issue, please contact us.
